

WOOD TECH "HEADS-UP"™ Moulder Head Program

Nearly 1000 Configurations - Wood Tech Enterprises now offers you almost 1000 different moulder heads with fast delivery. It includes more configurations than anyone's ever offered before.

Made in America!- And every component of our moulder heads is manufactured right here in America, so that you are assured of getting the highest quality you've come to expect from Wood Tech Enterprises.

Full Service - Plus Wood Tech services every moulder head we sell and just about every moulder head anyone else sells, too. We'll thoroughly clean and inspect your moulder head, make any adjustments or repairs necessary and have it working like new again. Just call the number above for more details.

How to Order - The lines offers you multiple choice cutter heads with fast delivery. We do it by keeping certain features of each moulder head constant, while letting you choose from specific ordering variables (most moulder heads offer limited variables to simplify ordering and speed of manufacturing.) Due to the special order nature of these items, no returns are allowed unless these items are manufactured incorrectly. Moulder head orders should be faxed or mailed to Wood Tech Enterprises, Inc. We thank you for your understanding in this matter.

Different species of wood depending on geographic origin, moisture content, etc. may require some adjustments in hook angle, feed rate and knife marks per inch to achieve desired results.

Hook Angle Options

"HEADS-UP"™ PROGRAM

Wood Tech Quality Assurance

Our "Heads-Up Program" offers you a wide range of optional head configurations with quick delivery. We do it by keeping certain features of each moulder head constant, while letting you choose from specific ordering variables (most moulder heads offer limited variables to simplify ordering and speed of manufacturing.) Due to the special order nature of these items, no returns are allowed unless these items are manufactured incorrectly. Moulder head orders should be faxed or mailed to Wood Tech Enterprises, Inc. Thank you for your understanding in this matter.
