DIAFOLD Sharpeners

DMT Diamond Diafold Tapered Rods and Flat Files

Folding plastic handles enclose the diamond surface and provide storage for the 4" (110m) pocket diamond files. 9-1/2" (240mm) open and 5" (125mm) closed. The handle folds into a protective sheath like the Diafold hones carrying case.

DMT Diafold Tapered Rods

This tapered rod is coated with the high quality diamonds. It is perfect for removing the burrs on knives. The Diafold Tapered Rod is useful for touching up the bevel on hook tools and can be used on serrated knives in the kitchen. The 4" long rod tapers from 1/16" diameter at the small end to 1/4" diameter on the larger end.
