

Polyurethane Flex Hose For Internal Moulder Dust Extraction

Most urethane flex hoses available in North America encapsulate the wire reinforcement in the middle of the hose wall. This specialized European hose has a urethane layer extruded around the wire located on the outside of the hose wall. This produces a full internal hose wall, resulting in a more flexible and wear-resistant material.

- Clear polyester-based urethane
- Minimum 10' lengths
- 30% better wear life over industry-standard polyether-based urethane.
- Wear life is 5-10 times longer than PVC, TPR or Neoprene
- Lengths less than 10' available for an additional cutting charge.
- Optional heavy-duty quality and thickness for more abrasion resistance.

Hose Diameter	Medium Duty Hose	Heavy Duty Hose
120 MM (4-23/32")	FLEX HOSE-120	FLEX HOSE-120HD
130 MM (5-1/8")	FLEX HOSE-130	FLEX HOSE-130HD
140 MM (5-1/2")	FLEX HOSE-140	FLEX HOSE-140HD
160 MM (6-9/32")	FLEX HOSE-160	FLEX HOSE-160HD
200 MM (7-7/8")	FLEX HOSE-200	FLEX HOSE-200HD
250 MM (9-27/32")	FLEX HOSE-250	FLEX HOSE-250HD
300 MM (11-13/16")	FLEX HOSE-300	FLEX HOSE-300HD

Other sizes and cut lengths available upon request.

7 Pc drill bit adapter set

Shelf Pin Drill Guide

Snappy Drill Adapter bits & Shelf Pin Drill Guides

Snappy Drill Adapter Bit Sets include: 1 EA; 1/16", 3/32", 1/8", 5/32", 3/16", 7/32" & 1/4" drill adapters. Each adapter holds a range of sizes from .005" larger to .010" smaller than size listed. Set also includes hex socket to facilitate drill replacement. Bright finish high speed drill bits. Use in metal, wood or plastic. **Made in USA by Snappy.**

Snappy Shelf Pin Drill Guides are available in a wide range of sizes. Works with shelf pin drilling jig. Drills holes for standard shelf pins. Brad-point bit drills sharp, clean-cut holes. As such, their ends are not tapered like other self centering bit guides. Drill bits are easily replaced by simply loosening a set screw, while the spring is replaced by unscrewing the hex drive shank from the knurled body. Shelf pin guides come with standard 1/4" hex shanks for use in Quick Change chucks. Call us today for details. **Made in USA by Snappy.**

PORTABLE LINE BORING TOOLS

Gizmo 2010 –This New Portable Drilling Tool Allows You to Field Install your Cams with or without Outriggers:

Place over display hook - twist legs - it's on permanently. Molded in hi-impact styrene for spring action with exceptional strength.

- Attaches to 3/8" or 1/2" hand drill • Saves costly downtime on the job
- Drills one 20mm or both 20mm and 10mm in one stroke • Built-in measuring guide
- Setback preset for Titus System Six • Eliminate need for unsightly brackets
- Depth adjustable for different board thicknesses • Drill bits are sold separately

GIZMO 2010

Part Number	Description
GIZMO-2010	Portable Boring Jig drills 20mm or 10mm at one time
GIZMO BIT 10 MM	SPECIAL Dowel Drill 10mm OD for GIZMO 2010
GIZMO BIT 20 MM	SPECIAL Hinge Bit 20mm OD for GIZMO 2010
