

TERSA REPLACEMENT KNIVES

TERSA knives are available in four qualities. Each as a built in chip-limiter and are available in a large range of sizes. 1350mm (53.15") HSS/M42/Chrome Steel. Solid Carbide knives are available up to 630mm (24.8").

Pricing Available on Request- please call 1-800-TOOLING.

Recommended uses:

- Chrome: Softwoods only.
- HSS: Best for all around use. Recommended for pine, oak, maple, cherry, etc.
- M42: For tougher applications. Less likely to chip the cutting edge than HSS.
- Solid Carbide: Most durable, reduced finish quality, recommended for hickory, exotic hardwoods, laminated woods, dirty material, glue lines.

Knives up to 12 Inches
