

WCL WOOD CUTTING LUBRICANTS

Wood Cutting Lubricant's Fluoropolymer formula penetrates and bonds to the microstructure of the tooling surface. This unique liquid Fluoropolymer spray allows Saw blades, Router bits and other cutting tools to cut all kinds of materials cooler, cleaner and with less friction.

Prevents blade and bit fouling caused by pitch build-up, while it prolongs the cutting life of all cutting tool surfaces including Carbide, Stellite and High Speed Steel. Contains no silicon or petroleum oils so it has no affect on gluing or finishing.

- Is non-toxic and non-flammable.
- Protects and seals the tooling surface preventing corrosive materials present in the wood from chemically etching the fine point of the cutting edge.
- Adds lubricity to the tooling allowing the edge to travel through the wood fibers.
- Adheres to the rough scratches in the tooling surface filling them with "tiny liquid ball bearings" reducing the friction of the wood-tooling contact.
- Is encapsulated in water and removes heat from the tooling surface.

| Product No. | Product | Container Type | Size |
|-------------|------------------------|-------------------------|------------|
| WCL | Wood Cutting Lubricant | Plastic Trigger Sprayer | 16 ounces |
| WCL Case | Wood Cutting Lubricant | Plastic Trigger Sprayer | Case of 12 |

RBL ROUTER BIT LUBRICANT

Router Bit Lubricant's Specialty Fluoropolymer formula penetrates and bonds to the microstructure of the tooling surface. This unique Fluoropolymer liquid allows Router bits, to cut all kinds of materials cooler and cleaner with less friction.

Prevents bit and bearing fouling caused by heat while it prolongs the cutting life of all router bit tool surfaces including high speed steel, carbide and diamond.

- Lubricates bits allowing the edge to travel through the material more efficiently.
- Adheres to the microstructure in the tooling surface to reduce friction.
- Penetrates top bearings to reduce friction.
- Is encapsulated in water and removes heat from the tooling surface.

| Product Number | Product | Container Type | Size |
|----------------|----------------------|------------------------|----------|
| RBL | Router Bit Lubricant | Plastic Dropper Bottle | 2 ounces |

CMT 2050 BLADE AND BIT CLEANER

- Safe and non-toxic.
- Effective as resin releases it's grip - Simply wipe off.
- Environmentally friendly.
- Satisfaction guaranteed!

| Product Number | Product | Container Type | Size |
|----------------|------------------|--------------------------|-----------|
| CMT-99800101 | 2050 Bit Cleaner | Spray Bottle | 18 ounces |
| CMT-99800103 | 2050 Bit Cleaner | Plastic Jug | 1 Gallon |
| CMT-99800104 | 2050 Bit Cleaner | Plastic Bucket | 5 Gallon |
| CMT-99800105 | 2050 Bit Cleaner | 55 Gallon Plastic Barrel | 55 Gallon |
